

Automatic Overdrive

Slash

My baby is high, she's in overdrive
She's a fiend out on the floor
She's a shot of hate
She's a drop dead paramour

She comes around and she turns it up
Her disease I can't ignore
Puts it to the red
Like I've never seen before

But it's all right
Baby's automatic, she's in overdrive
Rollin' all night
Never slowing down until she sees the light

She always says she's sick and tired
Of the pressure and the pain
Bearing down on her
Like a ten ton suicide

How many times I tell her
If she keeps running at this pace
She'll be long run out
Before she can ever reach the light

But it's all right
Baby's automatic, she's in overdrive
Rollin' all night
Never slowing down until she sees the light

She's running free
She's running hard
That's all she needs to reach the top

She's so obscene
She's all I've got
My motor queen don't ever stop
Oh I wanna do it again

Cause it's all right
Baby's automatic, she's in overdrive
Rollin' all night
Never slowing down until she sees the light

But it's all right
Baby's automatic, she's in overdrive
Rollin' all night
Never slowing down until she sees the light

But it's all right
Baby's automatic, she's in overdrive
Rollin' all night
Never slowing down until she sees the light

But it's all, right
Baby's automatic, she's in overdrive
Rollin' all, night

She ain't slowin' down till she scores tonight
