

My Antidote

Slash

I guess I've been defined by my condition
I guess I've been defined by what they want
When paradise becomes your own petition
All there's left to find is a lost cause

But in the end
I've only got myself to blame
I was only in the game
For the reasons that were wrong

But it's all I know
Though this song is my salvation
It's the beast I can't control

But it's all I am inside
I got no time for moderation
Getting by still on the only thing I know
My antidote
In stereo

I wonder if the doubts will keep on coming
I wonder if they're almost done with me

But in the end
I've only got myself to blame
I'm a shadow in decay
I'm the tragedy you want

But it's all I know
Though this song is my salvation
It's the beast I can't control

But it's all I am inside
I got no time for moderation
Getting by still on the only thing I know

But it's all I know
Though this song is my salvation
It's the beast I can't control

'Cause it's all I have inside
I got no time for moderation
Getting by still on the only thing I know
My antidote
In stereo
My antidote
