

Stone Blind

Slash

Stone blind
In the dark
Vision of beauty with an ugly heart
Stone blind
To everything about her

She pulled the wool over my eyes
But the last nail in my coffin robbed me blind
It's the truth I can't deny
Oh it feeds off good intentions
As you beg for second sights

CHORUS

She's got me
Stone blind
In the dark
Vision of beauty with an ugly heart
Stone blind
To everything about her

She always comes on way too strong
And the world fills up with fire when she's gone
My double talking debutante
In a hustle she will own you
Until she gets all that she wants

CHORUS

She's such a wicked thing
And though I've seen it all before
I'm in the dark again
The woman's gone away

Stone blind
In the dark
Vision of beauty with an ugly heart
Stone blind
To everything about her
About her

CHORUS

Stone blind (She pulled the wool over my eyes)
Stone blind (She shot me down and robbed me blind)
Stone blind (And now I'm begging her for second sights)
She's got me stone blind
