

## Blue Like You

Sleeper

She was a singer of beautiful love songs  
La-la-la-la, la-la-la-la  
But the words were never her own  
La-la-la-la, la-la-la-la  
How do you find your place in this world?  
Your true faith is never enough

No, I don't feel alright  
I feel sad and lonely and blue  
And so uptight  
No, I don't feel okay  
Wish that I was someone different  
Somewhere different, on a different day

And he was cool, you know what I mean  
But he felt low, yeah he felt low  
At night he cries into his machines  
Where does it lead?  
How can we know?  
How do you find your place in this world?  
Your true faith is never enough

No, I don't feel alright  
I feel sad and lonely and blue  
And so uptight  
No, I don't feel okay  
Wish that I was someone different  
Somewhere different, on a different day

Filter life and filter pretty  
Up above this gorgeous city  
We ride  
All alone

No, I don't feel okay  
Wish that I was someone different  
Somewhere different, on a different day  
No, I don't feel alright  
I feel sad and lonely and  
Blue like you tonight

Blue like you tonight  
Blue like you tonight
