

Lady Love Your Countryside

Sleeper

Lady love your countryside
Your motorways are very nice
Come and get your aerosols
And help me paint up paradise
Let's get messed up boy messed up good

Come and suck down meat with me
Until it makes you feverish
I like to watch you eating stuff
Do you kiss your mother with those lips

Let's get messed up boy messed up good
Climb over here
And we could spend some time drinking and scheming
We'll close our eyes
Until we find ourselves hard to believe in

Face it boy life is a mess
I want to see you boxing naked to the death

Run and get your cigarettes
They make your lungs all treacly
You shouldn't look at me like that
Unless you want to mess with me

Let's get messed up boy messed up good
Climb over here
And we can spend some time hacking and wheezing
We'll close our eyes
Until we find ourselves hard to believe in

Face it boy life is a mess
I want to see you boxing naked to the

Come over here
And we could spend some time shopping till it gets dark
Come over here
And we could spend our lives puking in Belsize park

You know life is a mess
I want to see you boxing naked to the death
