

Show Me the Door

Sleigh Bells

Check it out, check it out
The faith's going away

...

Sometimes when I'm lying down
I feel like I'm fighting us
Looks like we're setting the stage
For a classic demise

You made it this far
Just a little bit more
Before we show you the door
Before we show you the door

Sometimes you just want to die
Sometimes you don't wanna die
Sometimes the lowest of tides
Caught me like rush to the knife

You made it this far
Just a little bit more
Before we show you the door
Before we show you the door

Check it out, check it out
The faith's going away

...

Before we show you the door...

I'll center the rise
The lowest of tides
Caught me like
Rush to the knife
