

# Ain't Got A Lot Of Money

Slightly Stoopid

I aint got a lot of money  
All i got is time and a reason to rhyme  
Don't need a lot of money  
All i need is you

My baby girl was a virgin till i came inside  
With the brown eye passionate and kisses right  
When i got her arms wrapped around my side  
Then you know it's a feeling that you talkin about  
And if you don't need me then i don't need you on my mind  
And if you don't want me then i don't want you on my dime

I said im leavin baby  
Never look back never look back  
I said im leavin honey  
Never look back again

I aint got a lot of money  
All i got is time and a reason to rhyme  
Don't need a lot of money  
All i need is you

And if you don't need me then i don't need you on my mind  
And if you don't want me then i don't want you on my dime

I said im leavin baby  
Never look back never look back  
I said im leavin honey  
Never look back again

I aint got a lot of money  
All i got is time and a reason to rhyme  
Don't need a lot of money  
All i need is you
