

## Fire Shot

Slightly Stoopid

So me go, fire, fire now  
Fire down below  
For these people they running 'round  
Out of control  
They running round them wicked out of control  
Jah, Jah, be with you  
But until we meet again  
Jah, Jah, be with you  
Until we meet, meet, meet again  
Fire no fire now  
Fire down below, below, below, below  
For these people they running 'round  
Said them out of control  
They running round them wicked out of control  
What's this? What's that?  
Budda, boom, boom shout out fire  
What's this? What's that?  
Budda, boom, boom shout out fire  
Fire, fire now  
Fire down below, no, no, no  
All these people running round  
With them out of control  
But they run around they wicked out of control  
It's just the s t double o p-id  
We comin' straight for ya  
When I'm on ya microphone  
Bet we rock shit like a warrior  
An' dem' girls, you gonna be doin'  
What those guys do, you know  
Oh, Jah, Jah, still be a lady  
Said these girls, you gonna be doin'  
What them guys do, you know  
Wicked man now but he want  
He want, he say now  
If all the girls, yes, them live 'cross the sea  
If all the girls, yes, them live 'cross the sea  
But what a great swimmer I and I would be  
But what a great swimmer I and I would be  
But I want my ink is pale girl  
My pen is dry but  
My love for you said it will not ever die  
Because me love you 'til the well run dry  
But I love the music make you feel so high, high, high  
When I seen 'em in the alley way, alley way  
Well, they remember that, lord have mercy  
When I return my bass it was gone in a matter of fact  
I looked around, Lord have mercy  
Then I didn't know what to do  
I'm callin' I'm the one  
An' me be callin' I want two  
I return to the pad but that'll tell ya that I'm through  
I'm singin' a little song for you sing a little  
Fire, fire now  
Fire down below, no, no  
All these people they running 'round  
Said them out of control  
They run around come again them out of control

But Jah will be with you  
But until we meet again  
Jah, Jah, stay with you  
Until we meet, meet, meet again  
No part of me old  
No part of me old  
No part of me old  
Repeat a jam a little  
I've got this bassline  
We got the bassline, line, line  
We got the bassline  
We got the bassline

Whoa, no, no, no  
Them got the bassline, line, line, line, line
