

## Higher Now

Slightly Stoopid

I'm on a higher plane  
I'm in the fire lane  
In use of my entire brain  
Ignoring prior claims  
And dire consequences

Music is higher consciousness don't mean to sound pretentious  
I'm levitating off the ground efficient  
I'll take an ancient manuscript and make it sound delicious  
Music is magic in Any topic of interest  
And we are blessed to share it  
These esoteric adventures  
No harassing my veracity  
Mamma sent me to class  
To expand my mental capacity  
While my teachers labeled me as a cool kid  
My music taught me more than what school did  
The truth is..

We feelin' higher now  
We never touch the ground  
You know the music sets us free  
Inside our minds we'll always be  
So much higher now  
Until we touch the ground  
You know the music sets us free  
Inside our minds we'll always be

I don't hold grudges  
But I remember facts  
I took a look at the abyss  
And now it's staring back  
Sympathy for careless acts there's an apparent lack  
Music's the key that unlocks this transparent latch  
A melodic emancipation  
Freedom from the  
Volatile vibes and bad statements  
Music's been my ultimate  
Path and safe haven  
Otherwise I'm on the opposite side of  
That glass casing  
Scratch that last statement cuz what Im making is sacred  
It's participation  
And bar manipulation  
Guitar riffs placed in the right  
Bizarre space and if  
And if you light a green spliff then I might just partake yeh  
The verbal Herman Munster's thirsty  
And I'm concert worthy  
With no controversy  
Mind state's beyond  
What you've formed about me  
And my music will live on without me  
Never doubt me

We feelin' higher now  
We never touch the ground

You know the music sets us free  
Inside our minds we'll always be  
So much higher now  
Until we touch the ground  
You know the music sets us free  
Inside our minds we'll always be
