

# If You Want It

Slightly Stoopid

If you want it  
Lord, you can have it now  
In any way you want to go  
And if you need it  
Reach right out and grab it, love  
Some actin' like they never know

Respect is given where respect is due  
carry you through  
Respect for them becomes respect for you  
Mark my words and everybody know it's true  
Harder you come will be dem harder you fall  
Said you wanna back, they're singing "come on, come on"  
Some others knowin' when dem back 'gainst the wall  
While we never see them fighting for the truth

And if you want it  
Then you can have it, love  
It's any way you want to go  
And if you need it  
Reach right out and grab it, love  
Some actin' like they never know  
But if you want it  
Then you can have it, love  
It's any way you want to go

Some them comin', said they pick up them Sayin' that they're the best, that  
they're better than the rest  
My lovers know there will be no contest  
While others goin' like they on the one man show  
Some never listenin' and some never learn  
to the fire and they bound to get burned  
They think they know that love is something that's earned  
They've gone astray and then they never to return

Well, if you want it  
Lord, you can have it now  
It's any way you want to go  
And if you need it  
Reach right out and grab it, love  
Some actin' like they never know

Things that we say for some people sounds outrageous  
Hard as them live it and take it as contagious  
Some other laugh and think you're just hilarious  
Some other feel it and praise you like a savior  
The harder they come, so the harder they fall  
The weaker their mind, Respect must be given to one and to all  
My message: spread the  
Some, they comin' only with humbleness  
Never can be no stress, how they livin' is righteous  
The man with love is the one that Jah bless  
Everything else in dem life, it will follow  
Some, they comin' only strictly with love  
Like the Lord up above, see, it's unconditional, it  
Is the way we should all be thinkin' of  
That's the way and that would be one mission road

Well, if you want it  
Lord, you can have it now  
It's any way you want to go  
And if you need it  
Reach right out and grab it, love  
Some actin' like they never know  
Lord, if you want it  
Then you can have it now  
It's any way you want to go  
And if you need it  
Reach right out and grab it now  
Some actin' like they never know  
Some actin' like they never know  
Some actin' like they never know
