

Life Rolls On

Slightly Stoopid

Brother tell me to
Sing him songs
So I'm playin' my guitar
Man, life rolls on

Noon to midnight
Dusk to dawn
All I need is you to help me
You'll be strong

Keep on singing,
Keep on playing
Let the music
Take you high

Keep on prayin'
Night and day
Let 'em know
You will survive

Golden years
They don't seem so long
Looking back at yesterday
And now it's gone

Why this world
Don't get along
See the way that we are living
Know it's wrong

Hold inviting
Fussing and fighting
Let's come together
We as one

Some don't take it
But we can make it
Let's find the ways
To carry on

Let them take you high
Let the music take you high
Let it take you high [x4]
Take you high [x2]
