

I Don't Wanna Be Your Boyfriend

Sloppy Seconds

I don't wanna be your boyfriend
I don't wanna hold your hand
I don't wanna get involved in
The things that you've got planned
You're never going to be my girlfriend
You're never going to be my wife
'cause i don't wanna be your boyfriend
And i don't wanna share my life
I don't wanna be your boyfriend
I don't wanna make a fuss
I don't wanna hear your friends
Talkin' 'bout the two of us
'cause i don't wanna call you up at night
Before i go to bed
And i don't wanna be your boyfriend
You better get it through your head!
I don't wanna wait in a record store so you can try on shoes
I'd hate to have to open doors or pull out chairs for you
It's great that you're so happy, but i'm a bit confused
If fate brought us together, then why were we introduced?
And you say that it's our anniversary!
That thought had not occurred to me...
The day that you and i first met is just one that i'll forget
I think it's very plain to see
That i don't wanna be your boyfriend
I don't wanna met your mom
I don't wanna be annoyed with
The goddamn senior prom
'cause i don't wanna be important
'cause i could never be enough
And i don't wanna be your boyfriend
'cause i don't wanna fall in love
