

## In Waves

Slow Club

I can't believe it, how we ended up so far  
We could be coasting like the angels with a habit  
I'll see the ocean closer if you let me say my piece  
Calling out relief

You can't tell me you're not like this  
Staring down the pages of the shit you've missed  
Hoping you'll find a way to change  
Days spent waiting in my living grave  
Then turning up at parties like a hurricane  
But it comes in waves  
It comes in waves  
It comes in waves  
Waves, waves, waves

The structure's building if I lay foundations down  
And stolen moments like her birthday I'll forget that  
I could be cleaner but I stay bathing in filth  
Craving to be still

You can't tell me you're not like this  
Staring down the pages of the shit you've missed  
Hoping you'll find a way to change  
Days spent waiting in my living grave  
Then turning up at parties like a hurricane  
But it comes in waves  
It comes in waves  
It comes in waves  
It comes in waves  
Waves, waves, waves
