And I don't need no music all I need is yo For me to grow all I need is 3 to

I think we need to bang bang boogie

You don't stop
Keep going to the early morning we can't stop
And still we won't quit til they breaking the door locks
We coming through the floor like we bouncing on old shocks

To many clothes on, take em off
Skin tone, got my mind lost
Uhn uhn keep them heals on
Hope your body ready for the marathon
Chest 36c hips 42
Can't blame me for the freaky things I do to you
Your bodies my viagra
Each pump got you coming like Niagara
Fraction, sweat mixing
My drug your addiction
Don't need no aphrodisiac
Sit back prepare for the climax

I can't deny
That your one of kind
So come on
We den came so gone and make the rain pour
What you afraid for let the summer breeze blow
I can't deny
That your one of kind
So come on
We den came so gone and make the rain pour
What you afraid for let the summer breeze blow

I think we need to bang bang boogie
You don't stop
Keep going to the early morning we can't stop
And still we won't quit til they breaking the door locks
We coming through the floor like we bouncing on old shocks
