

One Night Stand

Small Faces

Many times I've tried to tell you
Many times I've fallen down
Cause I'm the king of my new found world
You wanna share my crown

When my name was comin' on something
Illusion struck me down
But times have changed and my name's in lights
And you just hang around

I, I said I still remember all the things that you planned
Cause you're a one night stand
(Oh well, a one night stand, yeah)

I, I said I still remember all the things that you planned
Cause you're a one night stand
(Oh well, a one night stand, yeah)

Oh if a good girl you can't get me
Honey you're just wastin' time
Because my heart's grown cold and my mind's grown old
As even you will find
So behind those eyes you know it's true
I'm keepin' to one night stands
