

Over Too Soon

Small Faces

Don't let me find that it's over too soon
Don't let me find that it's over too soon

When I keep, I wanna be
I wanna be around her
She always makes me
So much pleasure
And I'm so glad that I found her

'Cause I know that time is limited
'Cause we would've done all the things we did
O-ho, then...

Don't make me feel that it's over too soon
Don't make me feel that it's over too soon

I just want a photo
And feel your hair
Feel I'm going closer to me, heh
'Cause when we're not together
The woman thinks that's the way it always 'gon be
Honey...

Babe, I know the thing around me for
But that's just his news, ain't gonna happen no more

Don't make me feel that it's over too soon
Don't make me feel that it's over too soon

If I might see you every mornin'
I think then you will all die
I'm sittin' here watchin' a dumb hug
Or maybe, baby, I'm wronger?
Tell me, I'm glad

I used to be a loner, don't you know that?
Times slip away
And ever since I knew her
Time's been on my side
And that's why I say
Listen, honey...

You're outta my sight but you're never outta my mind
So when I become alone
Don't let me find, don't let me
[Chorus]

Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
Don't let me find that it's over too soon
