

Pellet snow takes me over  
If you need, we'll talk and hold  
Dyed your hair and the smell of pot  
I hate it but I'll let it slide  
Sinking forward to the lions  
That're feasting on your favorite child  
It isn't fair, the case is closed  
And it gets worse, but I've been

Trained, conditioned and  
Framed, you know this pageant's  
Staged, oh miss voilà  
Shamed, you've come to face your flaws  
On the centerfold  
On the centerfold

The city fines and you are broke  
You taste falafel on your coat  
Wipe it down and now it's soaked  
So hang it up and let it slide  
When you fail, you just come home  
And kiss your mom, well, life sustains

You're unconditionally praised  
With vicious words, but I've been

Trained, conditioned and  
Framed, you know this pageant's  
Staged, oh miss voilà  
Shamed, you've come to face your flaws  
On the centerfold  
On the centerfold

But you can bet it all on the centerfold  
Journalistic rise and without a sound  
I don't think it's wise to get out and down  
And you can bet it all on the centerfold  
On the centerfold  
On the centerfold  
'Cause I've been

Trained, conditioned and  
Framed, you know this pageant's  
Staged, oh miss voilà  
Shamed, you've come to face your flaws  
On the centerfold  
On the centerfold
