

Downtown Fool Around

Smallpools

Empty living space, needs some life, your design
Steady on his price, coffee table, couch and blinds

It's a downtown fool around
I was waiting up for you, and you're waiting up for me
I've been saving up for weeks, now I'm paying just to please

You found someone to blame, the girls on TV don't do shit for me
So treat this how you like, I got what I came to find

It's a downtown fool around
I was waiting up for you, and you're waiting up for me
I've been saving up for weeks, now I'm paying just to please

It's a downtown fool around
Your downtown wishing well
I was waiting up for you, it's a downtown fool around

I was waiting up for you, and you're waiting up for me
I've been saving up for weeks, now I'm paying just to please

It's a downtown fool around, your downtown hold your ground
I was waiting up for you, it's a downtown fool around

Waiting up for me, I was just waiting up for you
This is praying up to shoes, cuz' you could save it all for weeks
