

# Bangarang

## Smash Into Pieces

I want you to follow me  
Don't wanna be alone  
Join me in conspiracy  
Where we can be unknown  
I just wanna feel alive  
Sit back and enjoy the ride  
We're taking off in time and space  
Gotta getaway

We're gonna party in my virtual reality  
Baby, it's you and me  
Bangarang!  
We're gonna party 'til the end of humanity  
Sleep is the enemy  
Bangarang!  
Say goodbye to lonely nights  
With an artificial life  
We're gonna party in my virtual reality  
Baby, it's you and me  
Bangarang! Ba Bang Bang a Rang!

The world is turning upside down  
We're tryna drown the pain  
I'm looking for a higher ground  
I think I found the way  
I refuse to walk alone  
Sick of being on my own  
We're taking off in time and space  
Gotta getaway

We're gonna party in my virtual reality  
Baby, it's you and me  
Bangarang!  
We're gonna party 'til the end of humanity  
Sleep is the enemy  
Bangarang!  
Say goodbye to lonely nights  
With an artificial life  
We're gonna party in my virtual reality  
Baby, it's you and me  
Bangarang! Ba Bang Bang a Rang!  
Ba Bang Bang a Rang!  
Bang Bang a Rang!  
Bangarang!

I want you to follow me  
Don't wanna be alone

We're gonna party in my virtual reality  
Baby, it's you and me  
Bangarang!  
We're gonna party 'til the end of humanity  
Sleep is the enemy  
Bangarang!  
Say goodbye to lonely nights  
With an artificial life  
We're gonna party in my virtual reality

Baby, it's you and me  
Bangarang! Ba Bang Bang a Rang!  
Ba Bang Bang a Rang!
