

## Burn

## Smash Into Pieces

I want you to see, I want you to feel  
Everything you've been doing to me  
I want it to hurt, I want you to learn  
What it means to twist and burn  
I want you to burn

You think you are safe and sound  
We have just begun  
Won't stop till you're in the ground  
I will have my revenge

I want you to see, I want you to feel  
Everything you've been doing to me  
I want it to hurt, I want you to learn  
What it means to twist and turn  
I want you to burn  
I want you to burn  
I want you to burn  
I want you to burn

Too late to apologise  
To remove my scars  
You can run but you cannot hide  
I will seek, I will find

I want you to see, I want you to feel  
Everything you've been doing to me  
I want it to hurt, I want you to learn  
What it means to twist and turn  
I want you to burn  
I want you to burn  
I want you to burn  
I want you to burn

You took your time  
You made your move  
Behind my back, attack  
What goes around comes around  
What comes around, burns!

Your life has no future  
Talk won't get you out of this  
Should have been more careful  
Playing with fire

I want you to see, I want you to feel  
Everything you've been doing to me  
I want it to hurt, I want you to learn  
What it means to twist and turn  
I want you to burn  
I want you to burn  
I want you to burn  
I want you to burn
