

Don't Wake Me Up

Smash Into Pieces

I can feel my arms around you
I can hear you whispering my name
I can smell the scent of your skin
When I close my eyes
Everything is feeling so real
When you smile at me

Don't wake me up
'cause I am with you
Down the memory lane
Don't wake me up
'cause I refuse to
Realize I'm in pain
In memories I'll remain

I remember every moment
When you took me to my happy place
I remember what it feels like
To be alive again
But there's one thing my mind has blacked out
How the story ends

Don't wake me up
'cause I am with you
Down the memory lane
Don't wake me up
'cause I refuse to
Realize I'm in pain
In memories I'll remain

What I did
Makes me sick
Makes me hate myself

What I did
Makes me sick
Makes me hate myself

Don't wake me up
'cause I am with you
Down the memory lane
Don't wake me up
'cause I refuse to
Realize I'm in pain
In memories I'll remain
