

Glow in the Dark

Smash Into Pieces

Black is back to attack
Do you wanna take me down in the shadows
Hit the light enter night
Now we're gonna hide and seek baby let's go

I never fall do you wanna try
Never coming to the other side
Never quit never give up no

I glow I glow in the dark tryna find my way home
With nowhere to go
I glow I glow in the dark tryna run from a ghost
With nowhere to go
Gotta stop the pretend disconnect and defend
Go to war to feel alive
I glow I glow in the dark tryna find my way home
I feel like a star (I feel like a star)
'Cause I glow in the dark

Back on track Nickelback got me going
For a ride on a dark horse
Let's resist let the fist do the talking
Time to give you a hell-o

I never fall do you wanna try
Never coming to the other side
Never quit never give up no

I glow I glow in the dark tryna find my way home
With nowhere to go
I glow I glow in the dark tryna run from a ghost
With nowhere to go
Gotta stop the pretend disconnect and defend
Go to war to feel alive
I glow I glow in the dark tryna find my way home
I feel like a star (I feel like a star)
'Cause I glow in the dark

You me baby
One of us is going down
One of us is going down

I glow I glow in the dark tryna find my way home
With nowhere to go
I glow I glow in the dark tryna find my way home
With nowhere to go ('Cause I glow)
I glow in the dark tryna run from a ghost
With nowhere to go
Gotta stop the pretend disconnect and defend
Go to war to feel alive
I glow I glow in the dark tryna find my way home
I feel like a star (I glow in the dark)
