

# My Wildest Dream

## Smash Into Pieces

It's my wildest dream falling in the deep  
With a beautiful nightmare we are wrong, but I don't care

It's my wildest dream  
My wildest dream

I know you're talking  
I know you talk the talk, that's all you do  
I know I'm walking  
And one day I will walk all over you

But every night hits right in the feels  
When I go to sleep with the enemy

It's my wildest dream falling in the deep  
With a beautiful nightmare we are wrong, but I don't care  
It's my wildest dream feeding my machine  
With a beautiful nightmare we are wrong, but I don't care

It's my wildest dream

A pretty liar  
And everything you do is pretty much  
I won't deny it  
You always get away, you've got the touch

'Cause every night hits right in the feels  
When I go to sleep with the enemy

It's my wildest dream falling in the deep  
With a beautiful nightmare we are wrong, but I don't care  
It's my wildest dream feeding my machine  
With a beautiful nightmare we are wrong, but I don't care

If we're too wrong to be real  
Then why the hell does it feel  
Like heaven when I fall  
'Cause it won't stop in a dream  
When I wake up  
Don't know what to go for love or war

It's my wildest dream falling in the deep  
With a beautiful nightmare

It's my wildest dream falling in the deep  
With a beautiful nightmare we are wrong, but I don't care  
It's my wildest dream feeding my machine  
With a beautiful nightmare we are wrong, but I don't care

It's my wildest dream  
My wildest dream  
My wildest dream
