

# Paradise

## Smash Into Pieces

You drive me crazy  
I'm up again but get knocked down as soon you leave  
You make me unsteady  
Hold on to me just hold me tight before you leave  
I feel that I want you so close  
We burning when it hurts the most  
The fire in you the fire in me the fire in us

Stronger than the river the water getting deeper  
I breath you in for one last time paradise  
Deep into the ocean  
We dive in our emotions  
Lost in your eyes with you I'm in paradise

You make me feel that  
I am alive but yet I know it won't belong  
You make me see that  
I can't go on cause all I know I'm lost in you  
I fear what I have in my arms  
Can't hold you without getting scars  
The fire in you the fire in me the fire in us

Stronger than the river the water getting deeper  
I breath you in for one last time paradise  
Deep into the ocean  
We dive in our emotions  
Lost in your eyes with you I'm in paradise (Oooh)  
With you I'm in paradise

The pain that we have to go through  
Will we be the same we're going through flames again  
How long can we keep on burning?  
Like oxygen I breath you in the air I exhale the wind to my sail  
We're drifting away together

Stronger than the river  
Deeper than the ocean  
I breath you in for one last time paradise

Deep into the ocean (Ocean)  
We dive in our emotions (Emotions)  
Lost in your eyes with you I'm in paradise (Oooh)

With you I'm in paradise (paradise)  
With you I'm in paradise
