

# Throne

## Smash Into Pieces

I'll be waiting whenever you come crawling  
I'll hold on  
I will defend my throne

You pull me down and lift me up  
To make me feel I'm not enough  
Like you're the cure just what I need  
But I know you're the enemy

You've been hiding under my skin  
Trying to take control from within

I'll be waiting whenever you come crawling  
I'm not scared of a ghost, I stand on my own  
All I know is you'll never see me falling  
I'll hold on  
I will defend my throne  
I will defend my throne

I'll go to war for peace of mind  
The inner voices made me blind  
I see you now behind the lies  
Acting like a parasite

You've been hiding under my skin  
Trying to take control from within

I'll be waiting whenever you come crawling  
I'm not scared of a ghost, I stand on my own  
All I know is you'll never see me falling  
I'll hold on  
Until the day I'm gone

I don't know what you want from me  
We got nothing to say  
The fire is leading the way  
All I know is you'll never see me falling  
I'll hold on  
I will defend my  
I will defend my throne

Give me your best shot  
Give me all that you've got

I'll be waiting whenever you come crawling  
I'm not scared of a ghost

I'll be waiting whenever you come crawling  
I'm not scared of a ghost, I stand on my own  
All I know is you'll never see me falling  
I'll hold on  
I will defend my throne  
I will defend my throne  
I will defend my throne
