

# Pretender

SMASH

I know I've kept you waiting  
I know I made you mad  
But this time that we've spent creating  
Was the best time I ever had

Now I love to sit with mem'ries  
But they won't come until we're gone

So give me a kiss  
And cut, print... moving on

Tell me a brand new story  
Together, we'll turn the page  
The grass is always greener  
On some new technicolor stage

And if a duckling never swims  
She'll never become a swan  
Yes, I'm diving in  
So cut, print... moving on

Yes, there have been nights I'll long to relive  
But sometimes you gotta roam  
You can't fight when something's gotta give  
But you'll always be my home away from home

Now, I like to play a love scene  
But don't let it last too long  
Play me the eight bar intro  
Of some new lush romantic song

I'm not afraid to take that leap  
With you to depend upon  
Now, tell me your name?  
Cut, print... moving on

We told the same jokes  
We breathed the same air  
We couldn't tell night from day  
But just like the end of a love affair  
We all know the time comes to break away

Last year, we all were strangers  
This year, we're lifelong friends  
I know that this location  
Is not where our story ends

Get up cause the rat race never ends  
This life is a marathon  
And I plan to run so much more than a sprint  
What's next? Well, I can't even give you a hint

But boys, that's a wrap  
So, cut! Print!  
Moving on!  
And on!  
Moving on!
