

The Goodbye Song

SMASH

The time has come
I'm flying away
Mouth is numb
Heart don't know what to say

And although I'll be out of sight, dear
Know I'll be right here
Right here forever, ever, ever, ever

When you look to the night skies
Don't think of goodbyes
Think how I'm right here ever, ever, ever

Come

No, you can't come with me

Stay

I wish I could

Goodbye aye-aye-aye

I know it's hard to say

Come

No, you can't come with me

Stay

I wish I could

Goodbye aye-aye-aye

I know it's hard to say

Ow

I know it hurts to say

I'd stay if I could
But the universe won't let me
So please be good
And don't you forget me

And although I'll be out of sight, dear
Know I'll be right here
Right here forever, ever, ever, ever

When you look to the night skies
Don't think of goodbyes

Think how I'm right here ever, ever, ever, ever, ever, ever, ever, ever
