

# Counting On You

SMiLE.dk

My situation is like an equation  
An answer so hard to find  
Mmm, figures and numbers how can I solve them?  
I can't get you out of my mind

Oh, it's so systematic, strange mathematics  
I'm totally lost in you  
I know I'll be okay (I'll be okay)  
Cause I'm counting on you

You, you know one and one makes two  
And so I'm counting on you  
[On you, you] You make my sky so blue  
I'm in seventh heaven, close to the clouds  
You're my number one baby I can't live without  
1, 2, 3, 4-ever, I'm counting on you

Multiplication is causing frustration  
And I don't know where to go  
Mmm, I feel so divided, I just cannot hide it  
Honey, I love you so

Oh, it's so systematic, strange mathematics  
I'm totally lost in you  
I know I'll be okay (I'll be okay)  
Cause I'm counting on you

You, you know one and one makes two  
And so I'm counting on you  
[On you, you] You make my sky so blue  
I'm in seventh heaven, close to the clouds  
You're my number one baby, I can't live without (I  
can't live without)  
1, 2, 3, 4-ever, I'm counting on you
