

Like a warm summer day
Like a warm day in May
Babe you make me feel so hot

Like a small butterfly
Like a bird in the sky
Feels like a star that I'm not

You told things that I never knew
So what am I suppose to do
Running around like a little kid
One-Two-Three and I'm hit hit hit

Like a dragonfly flying high in the sky
There is light above and beyond you and I
Like a dragonfly flying high in the sky
There is light above you and I

Like a small paradise
Like a scent of a spice
Yes I guess I understood

Like a flower so sweet
Like a lover and me
Boy you make me feel so good

You told me things that I never knew
So what am I suppose to do
Running around like a little kid
One-Two-Three and I'm hit hit hit

Like a dragonfly flying high in the sky
There is light above and beyond you and I
Like a dragonfly flying high in the sky
There is light above you and I

Like a dragonfly flying high in the sky
There is light above and beyond you and I
Like a dragonfly flying high in the sky
There is light above you and I

Like a dragonfly flying high in the sky
There is light above and beyond you and I
Like a dragonfly flying high in the sky
There is light above you and I

Like a dragonfly flying high in the sky
There is light above and beyond you and I
Like a dragonfly flying high in the sky
There is light above you and I
