

Dream away, dream away, with me tonight  
Cause there is love in the air  
To a place where the stars are shining bright  
Yes, love is everywhere

Lost in emotions  
I wanna take you there

Lets come with me to a paradise  
And run away to a place where we can hide  
We are together in paradise  
Together forever, you and me tonight

Come with me, come with me, where time flies  
Almost too good to be true  
Its for real, like the magic in your eyes  
Its for me and for you

Lost in emotions  
I wanna take you there

Lets come with me to a paradise  
And run away to a place where we can hide  
We are together in paradise  
Together forever, you and me tonight

Lost in emotions  
True love and devotion

Viens avec moi au paradis  
Évadons-nous à labri des regards  
Nous sommes ensemble au paradis  
Ensemble pour toujours, toi et moi ce soir

Lets come with me to a paradise  
And run away to a place where we can hide  
We are together in paradise  
Together forever, you and me tonight
