

You make me smile  
'Cause you made it happen  
You made it all happen  
You make me smile

You make me smile  
You make me smile

I close my eyes and you are near me  
Right here in my heart  
You're always on my mind  
No matter if we're close or we're far apart

You and I belong together  
I'm gonna love you forever

You make me smile  
You make my heart sing  
You make everything, everything worthwhile  
I feel alive  
I feel so good inside  
'Cause you made it happen  
You made it all happen  
You make me smile

You're my hope, my joy, and my laughter  
You are my destiny  
Of all the fairy tales I've dreamt of  
This is the right one for you and for me

You and I belong together  
I'm gonna love you forever

You make me smile  
You make my heart sing  
You make everything, everything worthwhile  
I feel alive  
I feel so good inside  
'Cause you made it happen  
You made it all happen  
You make me smile

You make me smile  
You make me smile

You and I belong together  
I'm gonna love you forever

You make me smile  
You make my heart sing  
You make everything, everything worthwhile  
I feel alive  
I feel so good inside  
'Cause you made it happen  
You made it all happen

You make me smile

You make my heart sing  
You make everything, everything worthwhile  
I feel alive  
I feel so good inside  
'Cause you made it happen  
You made it all happen

You make me smile  
I feel so good inside  
'Cause you made it happen  
You made it all happen  
You make me smile
