

# The Only Game In Town

Smokey Robinson

Yeah...

Lady Luck doesn't smile on everyone  
You can bet your heart, she'll break it just for fun  
Whenever the wheel spins, somebody's gotta lose, yeah  
And I might be losin', but I can't walk away  
Love's a gamble, but we all gotta play

It's the only game in town  
Love is the only game around  
It's the only game in town  
Love is the only game

I can take my pick, but I always seem to choose  
From the deck of hearts, marked for me to lose  
Those are the chances we all gotta take, take  
You can count up the heartbreaks, but you can't cash in  
Just keep believin', soon you're gonna win

It's the only game in town  
Love is the only game around  
It's the only game in town  
Love is the only game

There's no use cryin' about it, yeah  
So, baby, what would life be without it

It's the only game in town, yeah  
Love is the only game around  
It's the only game in town  
Love is the only game

Yeah

Yeah, there's no use cryin' about it  
Oh, but, baby, what would life be without it  
Without it

It's the only game in town, yeah  
Love is the only game around, oh...  
It's the only game in town  
Love is the only game

It's the only game in town, yeah  
Love is the only game around, oh...  
It's the only game in town  
Love is the only game

It's the only game in town  
Love is the only game around  
It's the only game in town  
Love's the only game

It's the only  
Yeah, it's the only  
Oh... well  
Love is the only game

It's the only game in town  
Talkin' 'bout love, yeah  
Love is the only game around  
It's the only game in town  
Love is the only game...
