

# Vitamin U

Smokey Robinson

Since you went away from me  
I've got a love deficiency

Tried vitamin A, and you went away  
Vitamin B to bring you back to me  
Vitamin C for all the nights I cried  
Vitamin D to dry my eyes  
I tried them all and now I see  
The only one that's gonna work for me  
Is vitamin U, girl  
To see me through, girl, oh, yeah

Thought if I could find another lover  
With some tender care, baby, I'd soon recover, hey  
But like useless remedies  
They can't satisfy my needs

Tried vitamin A, and you went away, baby  
Vitamin B to bring you back to me  
Vitamin C for all the nights I cried  
Vitamin D to dry my eyes  
I tried them all and now I see  
The only one that's gonna work for me  
Is Vitamin U, girl  
To see me though, girl, ooh...

You're my weakness  
I need a does of you sweetness  
Girl, my strength is fading  
And my heart is ailing

Tried vitamin A, and you went away, baby  
Vitamin B to bring you back to me  
Vitamin C for all the nights I cried  
Vitamin D to dry my eyes  
I tried them all and now I see  
The only one that's gonna work for me  
Is Vitamin U, girl  
I need some Vitamin U, girl  
Some multivitamin U, girl  
To see you through, girl  
I need some multivitamin U, girl

Some multivitamin U, baby  
(I need you to see me though, ooh...)  
To see me through girl  
I need some Vitamin U, girl  
(I need you to see me though, ooh...)  
To see me through girl  
Multivitamin U, girl  
(I need you to see me though, ooh...)  
(I need you to see me though, ooh...)

Well, I tried Vitamin E, F and G  
Vitamin H was no help for me  
Vitamin I was hurting so  
I tried Vitamin J, K, L, M, N and O

Vitamin P, Q, R, S, and T  
Vitamin V, girl, and X, Y, Z  
Only thing that they did for me  
Was strengthen my eyes and help me see  
I need Vitamin U, baby  
I need some Vitamin U, baby

I need some Vitamin U, girl  
To see me through, girl  
I need some multivitamin U, girl  
To see me through, girl...
