

# When You Came

Smokey Robinson

When you came  
Warm and tender and bittersweet  
And surrendered to the love I had to give  
I started to live, ooh, yeah, pretty baby

When you came, baby  
Satisfaction was a dream fulfilled  
Our reaction was so positive and I've  
Never felt so alive

I never lived until you came  
Ooh, baby  
My life has never been the same

I blew my mind  
Like a rocket at the end of countdown  
Made my heart beat like a thousand drums  
To each others and then some  
All that happened to me

Yeah, when you came  
For a moment, we were all there was  
Nothing else existed, not the earth or the sky  
Just you and I

I never lived until you came  
Oh, baby, no  
My life has never been the same  
Ooh, baby, yeah

I never lived 'til you came  
I never lived 'til you came  
I never lived 'til you came  
I never lived 'til you came  
I never lived 'til you came

My, my, my, my, my  
My life has never been the same  
I, I, I, I, I  
I never lived 'til you came  
I never lived 'til you came

Ooh, I never lived until you came  
Ooh, baby, no  
My life has never been the same  
Ooh, baby, yeah  
I never lived until you came

I never lived 'til you came  
I never lived 'til you came  
I never lived 'til you came  
My life has never been the same

I never lived 'til you came  
I never lived 'til you came  
I never lived 'til you came
