

If Music Were Real (Outro)

Smosh

Yeah, I guess that would be pretty stupid if Smosh music was actually real.

Yeah. The only thing more stupid than that, would be the people who would actually buy this crap.

Suckers

The hell was that?

Oh my God. Terradactyles!

Cyborg terradactyles! With laser eyes!

Get 'em with a machine gun!

Come and get it, you dinosaur bastards!!

There's too many of them!

And so, Ian and Anthony were killed by cyborg terradactyles with laser eyes.

Eventually, the cyborg terradactyle overran the entire country, and Barack Obama was forced to rename the United States of America to the United States of Cyborg Terradactyles.

And they lived happily ever after. The end.

Bitch.
