

What I Do

Snak the Ripper

I drink till I puke, and i smoke till I sleep,
wake up and repeat cause, that's just what I do,
Im getting money every minute im alive,
I don't even gotta try cause, that's just what I do,
You gotta problem, and i hear you talkin shit,
ima smack you like a bitch, cause, that's just what I do,
gimme a beat and ima teach em all a lesson,
it never been a question cause, that's just what I do,

I take this shit serious, appear to be delirious,
it's clear to me your curious, cause snakky so mysterious,
If you talkin shit, let me tell you what my theory is,
you're a bloodying bitch, like your girlfriend on her period,
keep yappin while I make it happen, laughing in the face of fakes.
snappin necks, and taken names, cashin checks, im changing lanes,
this is what I do, my attitude is never lose,
catch me drinkin hella booze in videos with hella views,
this the sound of vandalism, from the ground the man is risen,
grammar and my mannerisms, giving rappers aneurysms,
they can't even stand the sight, you backin down I plan to fight,
and every single jam I write, wrote in blood by candle light,
random thoughts I have a night, take a seat and hand the mic,
eat your face, miami style, got em all like ''damn he hype'',
your worst nightmare, got ya pissin in the bed,
cause you know I got a few screws missin in my head,

I drink till I puke, and i smoke till I sleep,
wake up and repeat cause, that's just what I do,
Im getting money every minute im alive,
I don't even gotta try cause, that's just what I do,
You gotta problem, and i hear you talkin shit,
ima smack you like a bitch, cause, that's just what I do,
gimme a beat and ima teach em all a lesson,
it never been a question cause, that's just what I do,

anybody askin where I was I tell em home smokin,
fuck around with me and ima leave ya head blown open
layin right where you stand with every bone broken,
fuck it, Ephie is the brand, advertised in slow motion,
we makin mad noise, while you barely a commotion,
no emotion take you on a boat and dump you in the ocean
quit my day job, gave myself a good promotion,
ain't working for nobody else don't understand the notion,
cause every word I say will fuckin dislocate ya vertebrae,
you a rat in the dirt, I'm a fuckin bird of prey
you sounding stupid tryin to act like you ain't never heard of me,
cause when it comes to rap there aint a track that I ain't murdering
bury shit alive, I'm just lookin for the shovel,
so i rap until my eyes is crooked and I'm seeing double
big trouble, guess I'm in it for the long run,
pack the bong son - click replay when the songs done!
