

# Let the Beat Drop (Celebrate)

Snoop Dogg

Let me blow the smoke all in the air  
You know it's a party when Snoop's here  
The ladies let their hair go down low  
We let the whole club lights down low  
Down low  
In the BBM  
She checkin' for my name in the BBM  
I used to want a all black Beamer then  
She don't really know how I seen her then  
The west coast light, she ain't seen it yet  
She ain't seen it yet  
f\*ck it, let's celebrate  
Screw it, let's celebrate  
f\*ck it, let's celebrate  
Snoop Dogg, we celebrate  
Now let the beat drop  
Now let the beat drop  
Now let the beat drop  
Now let the beat drop  
Now let the beat drop

All about this paper while I'm rollin' up this paper, though  
In case you didn't know, I'm blowin' on that high endo  
Swizzy told me let it go, so I'm-a act a fool tonight  
I'm in the building and I'm coolin' and I'm chillin' like  
Never felt this way before, so I guess I'm-a let it go  
Since I'm-a let it go, you better get ready for  
More than the incredible, teach her what you gotta  
Came for a little but I left with a whole lotta  
Walked to the top but I started from the bottom  
Celebrate tonight by raisin' up your f\*ckin' bottles  
Smoke in the air, now everybody take a swallow  
Snoop Dogg is that nigga you should follow
