

Look Around

Snoop Dogg

I got a hundred thousand niggas with me
And the motherfuckin' police still fucking with me
But I don't give a fuck, nigga come and deal with me
I'm acting stupid silly, my lil' bitch from Philly
She sent a nigga 20 G's, cheese thru' the mail
And now I'm filling up with L's, gotta keep a lawyer just in case you niggas
tell
Probably squeal, nigga probably will
Polly want a cracker, nigga polly want to tell (snitch)
I come from Poly high nigga where we rip and ride
And bust niggas when we bust, it's a 4-5
Right to your D-I-Z dome
Click-clack bang bang you're gone
I got homies that live on the hillside
And got killers that kill that live on the real side

When cause roll deeper than a motherfucka'
Look around, look around
When catch 'em sleeping they got heaters
Look around. look around
When cause roll deeper than a motherfucka'
Look around, look around
When catch 'em sleeping they got heaters
Look around, look around
You niggas better act right
'Cause all of mine are riding
(Where my niggas is at, where my niggas is at)
(Where my niggas is at, where my niggas is at)
Look around, look around
Yeah, you niggas better act right
'Cause all of mine are riding
(Where my niggas is at, where my niggas is at)
(Where my niggas is at, where my niggas is at)
Look around look around

You did shit it and fell back in it
Disrespect the set now I gotta represent it
Yeah muthafucka I said and I mean it
Concentrated convicted crooked cops they contemplate it
Try to catch a nigga slipping, I had some bitches with me
I keep it crippin, me and Whitney had to move swiftly
Onto the next song, we had to press on
I'm preaching and teaching, nigga, learn the lesson
Me and my niggas we be deep when we in the streets
Most likely on the creep tryna find some freaks
Take em to the crib, lay 'em in between the sheets
And kick em out and talk bad bout them on these beats
Ima tell you cause see it's a crazy world
And now you in the club kissing on baby girl
You see them niggas there, they represent this here
So I suggest you shut the fuck up and disappear
(Yeah)

When cause roll deeper than a motherfucka'
Look around, look around
When catch 'em sleeping they got heaters
Look around. look around

When cause roll deeper than a motherfucka'
Look around, look around
When catch 'em sleeping they got heaters
Look around, look around
You niggas better act right
'Cause all of mine are riding
(Where my niggas is at, where my niggas is at)
(Where my niggas is at, where my niggas is at)
Look around, look around
Yeah, you niggas better act right
'Cause all of mine are riding
(Where my niggas is at, where my niggas is at)
(Where my niggas is at, where my niggas is at)
Look around look around

Snoop Dogg I'm a hell of a man
I got a carload of gangstas in my caravan
See them my niggas I take care of em man
Buying oil from them boys over there in Iran
And now the US nation, I mean the US hatin'
See cause they know a nigga stacking while he paper chasing
And showing niggas how to get it but legitimate
No more crumbs for you bums, fuck a little bit
We want the whole pot, and nigga why not
I guess another black leader gotta get shot
Before ya'll recognize but Ima wake you up
Shake you up, take my time
Take you up, cake you up
And break bread with you
Feed you, fed you, chop game with you
And put you on a real team
Cause rolling with Snoop Dogg, that's the American dream
You know what I mean
You know what I mean
