Yeah, yeah

Hurry, hurry, write your number on the napkin right now
And if you feel it let me hear you say oh, cause I gotta go
Something's burning, you see the party people rocking side to side
And if you feel it let me hear you say oh, cause I gotta know

She DTF cause she's down to feel
That aromatic, now unlock it baby this is for real
Are you a freak, or what?
I'm just a squirrel tryna get a nut
You crack me up
Are you a freak? So am I
So could we see eye to eye?

You must like gold, I bet mind control that's coming out your televis ion and radio
You must escape (say what) escape from here
Get intelligent when you hit that shit and let it go (go)

Far from here, let it go

She DTF cause she's down to feel
That aromatic, now unlock it baby this is for real
Are you a freak, or what?
I'm just a squirrel tryna get a nut
You crack me up
Are you a freak? So am I
So could we see eye to eye?

You try to survive, you're under pressure cause you're running outta time

But this is not a chance you wanna blow, cause we gotta go The deal is murder, you think long, you've been wrong, get it out you r mind

Make you move when you hear them screaming oh, cause I gotta go

She DTF cause she's down to feel
That aromatic, now unlock it baby this is for real
Are you a freak, or what?
I'm just a squirrel tryna get a nut
You crack me up
Are you a freak? So am I
So could we see eye to eye?

Why don't you swing, swing side to side?
Dear, dear, glide and glide
Swing, swing side to side
Dear, dear, do it one more time
Why don't you swing, swing side to side?
Dear, dear, glide and glide
Swing, swing side to side
