

## Round Here

Snoop Dogg

It ain't safe to leave the house  
Fuck around 'round here  
These niggaz quick to air ya out  
and lay ya down 'round here  
You run your mouth niggaz will put ya  
in the ground 'round here  
One-time don't even fuck around and come 'round here  
(2x)

M.L. and 21st, where niggaz worse  
Quick to put one in ya first  
Before they search your pockets get that china  
And where they got ya that's where they gon' find ya  
They rollin' out there nigga, that's that real shit  
Where bein' slick can get you caught up real quick  
Hold up homie, don't let this money blind ya  
Cause you won't see me standin' right behind ya  
Then it's time's up, that's how we talkin' if he come from the Beach  
Better watch them niggaz out here if they come from the East  
Don't stop if I'm not out somewhere so niggaz can see  
Cause they don't give a fuck, you stuck if you ain't with me  
My city's a beast..  
You can't walk through the Beach unless you walk with a piece  
You can't talk to police 'cause most police is like me  
They get that cheddar like they want it, take yo' shit in the street  
They want that paper out here  
Enough to come and take what's on your plate out here  
Enough to have somebody take your place out here  
Fuckin' around without your strap sound like a bad idea

It ain't safe to leave the house  
Fuck around 'round here  
These niggaz quick to air ya out  
and lay ya down 'round here  
You run your mouth niggaz will put ya  
in the ground 'round here

This L.A. County nigga  
If you's a bitch then get yo' ass from 'round here nigga  
Before they come put bullets in yo' brain  
Cause in the hood ain't nothin' really changed  
They tryin' to get that paper just like Uncle Sam  
And just like Sam niggaz just don't give a damn  
They mission is to leave yo' ass in pain  
Cause they don't give a fuck about a thing  
It's a cold game, that's how they talkin' if they walk on the West  
Better watch yourself without this star protectin' your chest  
These niggaz come from nowhere, get to takin' yo' shit  
You'll get beat outside the set and then sent home in your stretch  
This shit is a mess..  
You can't walk in them streets unless you walk with your vest  
You can't talk to police 'cause most police ain't gon' stress  
They get that cheddar like they want it with they foot in your chest  
They want that paper out here  
Enough to come and take what's on your plate out here

Enough to have somebody take your place out here  
Fuckin' around without your strap sound like a bad idea
