

# Stoner's Anthem

Snoop Dogg

A friend indeed  
Feelin' like Cee Lo Green  
Middle finger in the sky  
Meditating let it ride rock'a'by baby bye  
A friend indeed  
More than Jimmy 2  
More than giving you  
No prohibits dude you can have all this  
Until I couldn't find no one else that I can give it to  
And now that we own  
I can put my family in a brand new home  
My kids is grown  
And I'm still rocking on the microphone  
People love me everywhere and I know why  
It's not that I'm doping  
My style is so fly  
James Brown set me down in a chair  
And said "Snoopy don't you ever cut your hair"  
I was dazed and amazed  
That's why I keep my shit in pony tails and even braids  
When I was in school I used to get cool grades  
When I graduated I used to smoke 2 Ks  
With a fit to... groups  
...  
But then I got into... just like...  
Posted up 6 more  
Yeah, that's the back dough  
Ride my slow and futuresque lapdog  
Nick and cheeta  
Faith and cherry that's what...  
Can't forget Tim  
Baby dog ain't half dead  
... that showed me a lot of shit  
I'm moving along  
Went from my Camero to a fleet with room  
My sack in my back, my strap in my lap  
Room to the back  
Roaming through my neighborhood  
Checking my tracks  
As you get old life might get unfold  
Can't sette, this might be untold  
Twilight zone, live life long  
Smoke your bone and hit you  
And buy you a zone  
And roll you a chain  
And put it in the...  
All in together now, and if you agree  
Lighters in the air and repeat after me  
I too glow, forever in the day  
I love for our soul  
Does everybody agree it aint so  
Everybody's case, I'm on light weight...  
Give a dog a bone  
I like trees, the cyprus hill throw  
Roll up this shit  
Pimp and it's gone  
Stoners world wide singing this song

Yeah  
STraight Stoner's Anthem  
A lil something to smoke, too
