I don't need nothin' but a pound wit' a light

Take me away, nigga sittin' on flight

Sky high, smokin' on a PJ, G shit, bangin' on replay

OG snoop, no I don't see nothin' but the G way, my eyes on green like I'm D.

Ray

Money and kush, weed in my hands, burger in the bush, gettin' my bands

Shit get major, got my own brand, whole lotta flavors, hunnid thousand in the stands

Everybody feelin' good, ain't nobody out there hatin' today

Nah, smoke it, make it understood

Hit the kush and let it take you away, 'way

I said this kush is gonna take me away, 'way, away

I said this kush is gonna take me away, 'way, away

I said this kush is gonna take me away, 'way, away

I said this kush is gonna take me away, 'way, away

It's 1 AM and I'm just ridin' 'round town

Had a girl in São Paulo, I'll fly her right now

Don't send me emoji with the bright eyebrow

Tell me something good right now

I'm feelin' like, ooh, ooh

Okay

This KK got me feelin' cray-cray

I just got a pound and I smoked it all the same day

This cookie got me feelin' like a rookie

I just took three puffs, got super high, that's how it should be

This purple got me in a circle

Better slow it down before you hit it, it'll hurt you

This lemon got me feelin' finished

I won't ever stop, been blowin' smoke since the beginnin'

Ya' feel me?

I said this kush is gonna take me away (Yup), 'way (Let's go), away (Let's go)

I said this kush is gonna take me away (Yup), 'way (I mean), away (Yeah, yup)

I said this kush is gonna take me away, 'way, away

I said this kush is gonna take me away, 'way, away

It's 1 AM and I'm just ridin' 'round town

Had a girl in São Paulo, I'll fly her right now

Don't send me emoji with the bright eyebrow

Tell me something good right now

I'm feelin' like, ooh (Yeah, yeah, whoa)
