Snot

Growin' up in broken homes
You find yourself at ten years old
Runnin' drag and startin' fights
But minors hide behind their rights
Start slow with beer and pot
But soon you're bored with what you've got
Try some dope at first for kicks
You'd promised that you'd never fix
Fade away from the path you choose
You stuck your arm
Started to
LOSE

Surround yourself with pain and strife
A downward spiral is your life
Some years later your life's a shell
Still locked inside this living
HELL
Only to cope you leave your house
Now meet the cops your luck's run out
Got no love end up in jail
A few more beefs a five year tail
Prison term
Before too long
Your number's up
Now you are
GONE
(and thrown away the key)

Jails, institutions and DEATH (think I'm fucking kidding?)

Now it feels just like a dream But it's not what it seems Gotta block out the screams I'm too tired to defend Bring my life to an end This I can't comprehend But it's coming Now the needle's in my neck I know that mine is not The only life I've wrecked Now that I know the battle can't be won Selfishness weighs a ton Lookin' out for #1 As if my life was so pretty Now things look shitty And there's no one to save me from Fuckin' pain It burns hot from the inside out Now there ain't no doubt How this bout started out

Now they've finally brought me down Sympathy can't be found Locking doors the only sound

I've screwed over all who care It's only fair They've stripped my soul bare I can't take it Now it starts to come on strong The long arm of the law Coming down on my head It's been so long Since I have felt the sun beating down from above Without bars on my cage reminding me That I got screwed up And I've got no love >From a truck What the fuck I'll keep truckin' down I'm locked in this cell Kickin' it in hell Ain't no joke the straight dope started out

(Locking doors the only sound)

Jails, institutions and DEATH (think you can take your pick?)

Kickin' dope in a jail cell
You wanna die it feels like hell
Muscles ache you cannot sleep
Stomache ache you cannot eat
Do your time and make parole
Now you're free
Out of this hole
Think you'd learn and start to cope
But from the gate you score some dope

Nothing changes You start to regress You're all strung out Life is a mess Once again
