

Lord Be With You

Snow Tha Product

(2x):

I got some cute chicks, few clips
Bitches with some pistols
Got that pretty face, but don't catch a case
Fuck with them and lord be with you
Lord be with you, lord be with you
Yeah lord be with you

I think that everybody puttin' they bid in
But this chick here ain't auctioning
Snow Tha Product done been uncut
But I whip back into shape and I will rock again
Cause these hoes stay salty like condiments
But I be killin' game and I'll chalk a bit
Cause these square ass bitches already in the right shape
For me they no more than a box of mints
I flip a shirt like I flip the work
I flip a ditch like I flip the bitch
And I'm makin' money legitimate
But my side hustle finna make me rich
My money movin' and circlin'
I work the scale like I work the weight
I'm workin' early and I'm workin' late
And I'll post the bitch and she will work the day

What you tellin' me, you ain't hearin' me?
What you think I'm light skin, so this weird to me?
You think I'm finna have a fella take care of me?
Bitch at 17 I was facing hella felonies
The cutest stick up kid you ever met
Then I had a couple chicks out selling sex
Hoes harass, go get gas, then I throw her ass out the house
Cause I'm back on deck yes!

Look, what you know about chicks
Puttin' chicks on the blade
Getting dough after shows everyday
Sellin' coke on the coast
And you know we gonna go and get them
Bitches paid
I had a cousin named Diana, she know that arm and hammer
She smoke weed but never bama
And she so Hannah Montana
Yeah that white girl with that massive appeal
I had a ho in 09 and her ass was real
Craig's list, yeah bitch, yeah we had a deal
She crazy, paid me to post "had to chill"
I got pimpin' in my bones, bitches run the show
I got tipped from all these hoes

And they be postin' getting dough

What you tellin' me, you ain't hearin' me?
