

## Incite a Riot

Snowgoons

Up north for the county, I'm rowdy as the records was  
Blue vodka, hate me but respect the buzz  
Who shot ya? That's a question that's for anyone  
It took my homies getting [? ] to respect the gun  
Pushing thirty like Derrike Cope pit crew  
See the tree addiction how we stick dudes  
Branched off same state that the Roots from  
Same hate as Jena Six, swing from a noose hung  
My discussion nothing short of disgusting  
Accordingly snuff em then I'm in the court for concussions  
I'm harder to get than a quarter through customs  
Get accustomed to adjustments or adoption by abduction  
I was illegal before man knew  
Had that handle with little Jamal and his man too  
Mag attracts his rivals [? ] backs  
I ain't from DC homie but I'm liable to snap

You want it gullier than this?  
Stuck guzzling the fifth  
Get a skully and a clip, start humble then we flip  
We do, we incite a riot in here  
My dude, we incite a riot in here  
You want it gullier than this?  
Stuck guzzling the fifth  
Get a skully and a clip, start humble then we flip  
We do, we incite a riot in here  
My dude, we incite a riot in here

Hip hop ain't dead, yo it's right in my stomach  
I'm someone you'll never see like a lifer in public  
Breathe slow, believe show  
Cause we so beast mode we de-bo to be broke  
We the dough without [? ] knots  
Hitting Harlem spots, kick doors and take a jar [? ]  
Don't get at me, let it be, not a gangster  
But lose my temper quicker than a set of keys  
Peel like lettuce leaves, deal with pedigrees  
Feel my felonies in each verse I set em free  
Bound to blow like a chickenhead tied up  
Lyrically sticking [? ] flicking [? ]  
Sicker than five months until my time is up  
Five hoes without raw, picking the nines up  
Victims get sized up, listen then wise up  
Get your motherfucking throat slit with your spine cut
