

# Sacred Warpath

Sodom

World pacification  
The shadows will return  
Insidious conflagration  
When life begins to burn

Awake that's sleeping deep inside  
Slumbering mercenaries  
Disclose the mass demise  
Forsaken generosity

When daylight disappears into hell  
Unholy clouds of death prevail

Sacred warpath  
The gods within the guns combined  
The book of lies for faithless minds  
Sacred warpath  
That keeps the emptiness inside  
Crusades the dawn of time

Sliding down the drains  
Summoning the elder void  
Eating up your brains  
Dissected umbilical cord

Endless bleeding skies  
To overcast the battleground  
Blood seeping from my eyes  
Death aiming at my heart

When daylight disappears into hell  
Unholy clouds of death prevail

Sacred warpath  
The gods within the guns combined  
The book of lies for faithless minds  
Sacred warpath  
That keeps the emptiness inside  
Crusades the dawn of time

Who is the enemy and friend?  
Who looks a lot like me  
A fellow man with friendly fire  
Who'll be the first at least

Everything that moves at night  
Will kiss the bullet's lead  
Your blood in different colors  
Heralding doom without a pact

Sacred warpath  
The gods within the guns combined  
The book of lies for faithless minds  
Sacred warpath  
That keeps the emptiness inside  
Crusades the dawn of time
