

# Damaged You

SOiL

I thought you knew  
How easily confused  
When it all gives  
Tied up in fits  
When my mind burns its view

Damage  
Damage  
I made it through  
I won't forgive you  
You can't forgive a dummy  
You made it through  
I can't forgive me  
You won't forgive a dummy

I thought I knew  
When it all fits  
You made anew  
Everyday I live through you

Damage  
Damage  
I made it through  
I won't forgive you  
You can't forgive a dummy  
You made it through  
I can't forgive me  
You won't forgive a dummy

The damage you  
Watch my hands  
Before they clense  
I don't know where to begin  
Yeah!

Take it  
Damn  
The damage  
The damage  
The damage  
Damn  
The damage  
The damage  
The damage

The damage you  
Watch me slip  
Right through these slits  
Through these scars I carve for you  
Yeah!  
Yeah!

Damage  
Damage (Damn)  
I made it through  
I won't forgive you  
You can't forgive a dummy

You made it through  
I can't forgive me  
You won't forgive a dummy  
I made it through  
I can't forgive me  
You won't forgive a dummy  
You

Fuck it

Damn  
The damage  
The damage  
The damage  
Damn  
The damage  
The damage  
The damage
