

## Sailor Song

Solas

Oh the ship I'm on  
Time is what I ride  
Forty winds  
The captain and the tide

Well a sailor boy  
Stole me from my home  
And this sea of joy  
Is the only life I've known

I would fly away  
I would fly away  
But I take the sea  
For stranger days than these

Now a salty dog  
Is caught up on the reef  
And the bottom of the sea  
She kisses in relief

She could fly away  
She could fly away  
But she takes the sea  
For stranger days than these

So you trade your life  
When something comes for you  
And you bury the knife  
Between the lies and truth

You could fly away  
You could fly away  
But you take the sea  
For stranger days than these

And I take the sea  
For stranger days than these
