

# Denial

Solstice

Mind explodes, pressure you can't take  
Everybody goes by, closer to point break  
Everywhere you look  
Everyone turns on you  
On the verge of ending  
All existence made of hate

Embellished insight  
In the light of frenzied life  
Distant inner fear resides  
Rising up through denial

Complicate  
Aggravate  
Asphyxiate

Desolate  
Separate  
My altered state

Dizziness  
Binding sense  
More complex

Thoughts obsessed  
False pretense  
Perplexing stress

Punishment  
Detriment  
Torn apart
