

# Higher Than You Think

Something for Kate

Again (4x)  
It's up and down  
It switches  
Bad and good, good and bad  
One step forward, two steps back  
I've been laughing for so long  
I liked it better before  
Before the words even fall from your mouth  
I know, I couldn't disagree more  
The end (3x)  
It's the end (2x)  
It sounds the same  
It's you again  
Same face inside the frame  
I knew before that this would change  
I've been laughing for so long  
I liked it better before  
Before the words even fall from your mouth  
I know, I couldn't disagree more  
I've been laughing for so long now  
So long that I'm afraid  
Afraid to say so so so long now  
So long now (4x)  
It seems to me that the sun shines bright  
But I'm only looking at pieces of sky  
Silence (4x)  
It's higher than you think  
And it's not coming back  
If you have anything left  
Hand it over at the desk (2x)  
At the desk (2x)  
I've been laughing for so long  
I liked it better before  
Before the words didn't fall from your mouth  
I know, I couldn't disagree more  
I've been laughing for so long now  
So long that I'm afraid  
Afraid to say so so so long now  
So long now (4x)  
So long
